

Leading Lady....Leading Boss....Leading Mom....Leading Professional...

Watch out Superwoman....our leading lady nomination can run circles around you! Serena Brock truly exemplifies to those in her life the qualities of a strong Leading Lady. After years of running various companies, Serena made a life changing choice two years ago. She partnered with a local businessman to start up a healthcare company dedicated to serving the home care industry and advancing the careers of many healthcare professionals in our community. Her new venture has required many sacrifices - all of which Serena has met with strength, courage and lots of humor! Taking only two weeks maternity leave with the birth of her second child, she was able to keep her team on track in a critical time of the business' growth. This included calls to her hospital room...at a time when getting a big shot in the spine was a little more appealing than chatting about insurance needs! Her newest "team member" fit right into the office environment and Serena continued to set an example for the other team members of what it takes get a new home care company off the ground. Many nights and weekends were sleepless - not due to the baby, but due to the commitment needed to serve those in our community. As a caregiver herself, she understood that the needs of sick loved one are not limited to 9a-5p. Serena's selflessness and dedication to her home care company, her team and the healthcare professionals in our area has given our community an exceptional new home care resource! Since beginning MAI Healthcare she has diversified the business to include several new lines of business...home care, allied health staffing, scientific staffing and facility staffing. Quality, care and commitment are qualities that MAI Healthcare and Serna Brock both share. Our leading lady continues to carry the weight of a growing company on her shoulders...with grace, strength and courage....giving each of us a genuine example of a dedicated Leading Lady!
